TEN CENTS PER WEEK

COLD WAVE COMES AND WIND SHIFTS AWAY FROM SOUTH

Rocky Mountain Seat of Disturbance That Spoiled Weather.

Telephone and Telegraph Service Damaged.

RIVER BOATS HAVE OUT LINES

This is the anniversary of the big sleet storm that crippled the city for two weeks.

Paducah awoke this morning to find a heavy chilling wind blowing, instead of the summer weather that has been enjoyed for a week. The wind blew about 25 miles an hour, but no serious damage was reported aside from telegraph and telephone wires working badly, and dead limbs and fences being felled. For tomorrow the weather prediction is rain or snow with a cold wave following.

Early last night a brisk wind began blowing from the south, and about 8 o'clock rain began falling. The wind continued to blow all night and made it a boisterous one. This morning the wind shifted to the west and according to the weather man it will shift to the north by night, and be accompanied by a drop in temperature. The wind was the heaviest about 11 o'clock last night and for half an hour the wind threatened to do real damage.

According to the special forecast sent out from the weather bureau at Washington the disturbance began on the eastern slope of the Rocky mountains, and began moving rapidly southeast, being accompanied by rain, which turned to snow in the Missouri and upper Mississippi valleys. Rain for today was predicted in the Ohio valley, followed by fair and colder weather.

The wind was unexpected last night, but no serious damage is reported. All of the boats had out extra lines, and held to the shore, while passenger boats went to the bank during the high wind. At the city post house on the Cairo road a tent was erected to care for the extra number of patients and it fell early in the night. Fortunately no patients were in the tent at the time, as they had not been moved.

Telephone Troubles.

Both telephone companies had minor troubles with the wires. Many wires were crossed and it was difficult to reach the rural telephone subscribers. The East Tennessee Telephone company had a pole to fall near Wallace park. The city electric light plant ran all night, but the employees were kept busy. One pole in downtown fell and many telephone wires broke and fell across the wires. However, the arc lights were kept burning all night. The telegraph companies could not reach all stations today, but linemen were out at work early this morning and communication was established with all stations as soon as possible. Many roofs were damaged by the wind and most of the streets are well sprinkled with shingles and pieces of tin.

Storm Damage.

The steamer City of Memphis, which is moored to the bank of the Tennessee river near Island creek, was blown loose this morning, and sailed across the river. The steamer was not damaged, and was tied to the bank safely.

The smokestack at the city electric plant was damaged by the wind, as about 20 feet were blown off the top. A new stack is contemplated. A large window in the No. 2 fire station was blown out by the force of the wind last night.

At Chicago.

Chicago, Jan. 29.—A blizzard is raging in northwest Nebraska. Minnesota is cut off from telegraph and telephone communication. Temperature dropped to below zero. Despatches from Lincoln before the wires went down said the blizzard is the worst in twenty years.

In Missouri.

Rolla, Mo., Jan. 29.—Snow is falling and a heavy wind and cold wave. Damage is reported from wind.

Damage to Mines.

Joplin, Mo., Jan. 29.—Thousands of dollars damage was done to mining plants here by the storm.

Married at Metropolis.

James B. Gray and Minnie Flynn, of Star Line Works, were married by Magistrate Liggett at Metropolis.

License Committee Deadlocked on Question of Amending Measure ---Three Reversed Themselves

Ordinance Was Unanimously Adopted and Apportionment Unanimously Agreed on—Amendment Would Cause Deficit For Year.

Three members of the license committee of the general council, who voted in favor of adopting the present license ordinance and in favor of the apportionment ordinance, reversed themselves last night, when they voted to reduce the retail merchants' license and the wholesale grocers' license. Aldermen Durrett and Lackey and Councilman Wilson voted in favor of the amendment and Alderman Ochsenschlager and Councilmen Davall and Bower, voted against the amendment. Aldermen Durrett took his seat in November and voted in favor of the license ordinance, and Alderman Lackey and Councilman Wilson were both in the lower house and voted for it. All three also voted in favor of the apportionment adopted this week, which is based on estimated revenue, including the present license regulation. If the amendment should carry, it would create a huge deficit in the funds for the year.

The committee refused R. L. Tate, a broom manufacturer, exemption for the year.

Will Retain Officer Rice.

The services of Lycurgus Rice as stock policeman will be continued, as the committee on fire and police decided to retain the official last night. In addition to his duties as stock policeman the members of the committee decided to add the duties of keeping tabs on the dogs. Mr. Rice will secure the names of every dog owner in the city and see that the city license is paid. Mr. Rice has been a good official and has kept the city clear of roaming cows and horses.

PUBLIC SCHOOL PUTS
SECURE PROMOTION CARDS.

All the pupils of the public schools traded back to the schools this afternoon at 3 o'clock, when the promotion cards were given, and the last work of the first semester was completed. No work was done, as the students were at the school only long enough to receive the cards, when they were dismissed until Monday, the opening of the second semester. No reports have been handed in yet, and there is no basis for an exact number of promotions, but it is conceded that there were few failures.

IKE COHEN'S CUP OF ADVERSITY RUNNING OVER---SUIT BROUGHT BY REVENUE AGENT

Troubles come in battalions for Ike Cohen, a pawnbroker, who has been in the spot light recently owing to his misfortunes. The latest thing to worry the pawnbroker is the filing of a suit in county court by H. L. Anderson, state revenue agent, alleging that Cohen failed to pay his state license of \$500 for keeping a pawn shop last year. In addition to the \$500 the usual 20 per cent penalty is asked, which will make the least settlement \$600, exclusive of lawyers fees and costs.

Ike Cohen broke into the lime light last week when he swore out a warrant against G. W. Ervan, who is alleged to have pawned a "phony" diamond ring

He gave chase to the stranger, but could not find any trace in the darkness.

The Planters' Protective association have rented the three-story brick building at the corner of Second and Jefferson streets and will move in their new quarters in about ten days. New and more samples are being received daily and the room occupied at present is by far too small to handle the business. The new room will be put in the best of condition for showing off the tobacco and will be arranged in a neat order.

Carnegie Organ Wanted

Through the beneficence of Andrew Carnegie, the new Fountain Avenue Methodist church may be made the beneficiary of a handsome church organ. Carnegie, in addition to his bestowals of public library buildings, has been giving church organs, and officers of the Fountain Avenue church wrote to him. A response has been received from his secretary and an application blank was sent. It is hoped that the church may receive the organ.

Many feared a repetition of the cyclone.

Layman Will Speak.

Birmingham, Ala., Jan. 29.—It used to be that preachers did all the speaking at religious conventions, and a layman was a novelty. Of the twelve men featured by the committee in charge of the Birmingham convention, February 16-19, eight are laymen, and only one of the four preachers is a pastor. It looks as if the laymen were crowding the preachers pretty close at the speaking business.

FRANK LAMKIN IS MISSING, MAY BE MEMPHIS MYSTERY

Disappeared in This City Christmas Eve and Thought to be Murdered.

Horse and Buggy Are in City Pound.

HE RESIDED NEAR MELBER

The mysterious stranger, who appeared at the Memphis police headquarters and asked who he was, may be Frank Lamkin, a young man of Melber. He disappeared from this city Christmas eve. His horse and buggy were found on the street that night, but the impenetrable mystery that surrounds his whereabouts after reaching Paducah leads his friends to believe he was foully dealt with, and perhaps, thrown into the river. He was in the city purchasing Christmas presents. Mr. Lamkin formerly lived in Carlisle county and married the daughter of Reese Griffith near the Mayfield Creek church. He was a man of good habits.

Was Seen Here.

A dispatch from Memphis says: T. J. Tandy, formerly proprietor of a hotel at Dawson Springs, Ky., accosted the stranger while he was walking down Washington avenue yesterday afternoon with Slim L. Barlow, chief clerk of the police department. Despite the fact Mr. Tandy said he was positive the young man's name was "Clindard," and that he had met him in Paducah, Ky., Hopkinsville, Ky., Booneville, Ky., and at the St. George Hotel in Evansville, Ind., last August, where he said, "Clindard" was employed by a wholesale dry goods firm the Man of Mystery could not remember ever having seen Mr. Tandy before. The authorities at Evansville have been communicated with and the police are anxiously awaiting a reply to their urgent inquiry.

Convinced that the youth, who is unable to remember his name or place of residence, is his lost brother, C. S. Boyles, a master mechanic employed by the Navvoo Coke and Coal company at Navvoo, Ala., Deputy Sheriff J. W. Boyles, of Star City, Ark., Lincoln county, will arrive in Memphis today to interview and in the hope of identifying the young man, who has been a guest of Chief of Police Geo. T. O'Haver at police headquarters for a week.

Lamkin's horse and buggy has been in the city pound since December 26, when it was found near Ninth and Washington streets by the police. The buggy is a rickety one with a sorrel horse in fair condition.

Loose Leaf Sales.

Today at Bohmer's warehouse 45,000 pounds were offered and sold. There were no rejections and every one was satisfied with the prices. The regular buyers were present and the bidding at times was spirited. The highest price was \$9.80 while the lowest price was \$4.40.

Fight on Lewis

Indianapolis, Jan. 29.—The long expected fight against Lewis started in the miners' convention today. Jaggerty, a Pennsylvania delegate, declared Lewis worked to undo all the national organizers did in the bituminous fields of Pennsylvania.

SALOON MAN WINS CASE ON APPEAL TO HIGHER COURT

Frankfort, Ky., Jan. 29.—(Special.)—The appellate court today reversed the case of J. L. Jones versus the city of Paducah. In the McCracken county circuit court the city was given a judgment of \$1,000 against Jones.

Jones was a saloon keeper and was charged with selling liquor on Sunday. He was fined in the police court and Mayor Yeiser revoked his license. Suit was filed against his bondsmen for \$1,000, and a judgment given in the circuit court, but Jones took an appeal.

The court instructed the lower court to give peremptory instructions for Jones in the suit to forfeit bonds, and in which judgment for \$1,000 was entered for keeping the saloon open Sunday. The appellate court says there was no evidence that the Sunday law was violated.

A Confidence Game.

"Has your father yet given his consent to our marriage, dear?" he asked, rather timidly.

"Not exactly, dear?" she replied. "You see, father is so suspicious of young men. Now, if you could only convince him that you were steady, and that you had saved up some money, then you would gain his confidence, I'm sure."

"Then I must have gained it at

ready," said the youthful suitor.

"In what way?" she asked eagerly.

"He borrowed \$50 from me this morning," was the reply.—Young's Magazine.

ROMANCE

THAT ORIGINATED IN POLAND, CONTINUES HERE.

Couple Come Here From St. Louis With Interpreter and Are Married by Father Jansen.

A romance that began in the old country of Poland was brought to a close yesterday afternoon when Sophia Tabur and Joseph Blawick, of St. Louis, were married by the Rev. Father Jansen at the parsonage on South Sixth street. Neither the bride nor the groom could speak a word of English, and they were accompanied by their priest, the Rev. U. Stanowski, who was interpreter. After the ceremony the happy couple returned to St. Louis.

The bride and groom are first cousins, and for this reason they came to Kentucky to have the ceremony performed. When they were at the court house the Rev. Stanowski acted as interpreter to the Rev. Father Jansen, who explained to Miss Lizzie Edgington, deputy county clerk, that the license was wanted. When it was issued, the happy couple had the knot tied immediately at the home of Father Jansen. When the ceremony was performed the interpreter had to be used again, translating the English words of Father Jansen into Polish language, and then the answers of the couple back into English.

The bride had black hair and black eyes, being almost a perfect brunette. She has been in America longer than her husband, and is better acquainted with the customs, as she made the change when the marriage license was paid for. The groom came from good families in St. Louis. The romance of the couple began across the Atlantic. The bride was the first to come to America, and several months later she was followed by her lover, who wooed her successfully and won.

A CLOSE SHAVE

Many of Them Happening Every Day But Soon Forgotten.

Close shaves would be of more frequent occurrence but for the tender faces of many men, which will not permit of shaving often. Heretofore, nothing has been said in these columns about poslam, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been confined almost exclusively to its remarkable properties as an eczema cure; it stops the itching at once and cures the worst cases in a few days. While the application of poslam after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation, as it does for abrasions, roughness and severe scrapings what it does for all manner of skin difficulties—heals and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will soothe and tone up the skin as no toilet preparation could possibly do.

Poslam can be had for fifty cents at any reliable drugstore, particularly Gilbert's, who makes a specialty of it. Or the Emergency Laboratories, No. 32 West 25th street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

News of Theatres

"A Knight for a Day." "A Knight for a Day" at the Kentucky February 11, is a good entertainment, and the admirer of tuneful music, abundant fun-making and dashing, strenuous stage movement will have nothing to regret if he patronizes the performance, which is complete in every detail. A new stage mounting has been given the piece and a competent cast will interpret the various roles, all comic opera favorites.

"Don and the Mouse." "The Lion and the Mouse," which Henry H. Harris will again present in this city at the Kentucky February 12th, is an American play essentially and completely such and based upon a theme which has not been before exploited dramatically. It deals directly with a subject which at the present moment is very much in the public mind, the corruption of politics and legislation by the power of combined money making organizations and the dominance of unscrupulous kings of finance.

IN FEBRUARY.

Maidens fair with eyes devout
Don their vells and hurry out.
Soft! What can they be about,
In February?

Never ask them to delay
If they run to kneel and pray,
If they seek new hearts this day
In February?

Fellow now their flying feet,
Who is this they run to meet?
Who the stranger laughing greet
In February?

Are these roses on the snow
That they gather as they go?
Nay—they're picking hearts,
In February?

Who, then, is this pedler Jack,
Crying: "Maidens, what d'ye lack?"

Scattering hearts from out his pack
In February?

Have you guessed, sweetheart of mine,
That they welcome Valentine?
Thief! He stole your heart and mine
Last February!

JOY WORK

And the Other Kind.

Did you ever stand on a prominent corner at an early morning hour and watch the throngs of people on their way to work? Noting the number who were forcing themselves along because it meant their daily bread, and the others cheerfully and eagerly pursuing their way because of love of their work.

It is a fact that one's food has much to do with it. As an example: If an engine has poor oil, or a boiler is fired with poor coal, a bad result is certain, isn't it?

Treating your stomach right is the keystone that sustains the arch of health's temple and you will find "Grape-Nuts" as a daily food is the most nourishing and beneficial you can use.

We have thousands of testimonials, real genuine little heart throbs, from people who simply tried Grape-Nuts out of curiosity—as a last resort—with the result that prompted the testimonial.

If you have never tried Grape-Nuts it's worth while to give it a fair trial. Remember these ambitions eating Grape-Nuts every day—they know, and we know if you will use Grape-Nuts every morning your work is more likely to be joy work, because you can keep well, and with the brain well nourished work is a joy. Read "The Road to Wellville" in every package—"There's a Reason."

NOTICE.

I urgently request all persons indebted to me to make settlement before the first day of May, 1932, as I will after that date bring suit on every unpaid note and account due me. Now your account is to each of you a small matter, while the whole is to me very important. I shall deal with all alike; if you don't pay you may know that you will be sued, whatever your name or color may be. I hate to do this, but I am forced to it in self-defense. If you have not the money and will borrow it to pay me in full by the first day of March, 1932, I will deduct 10 per cent from your account, thereby paying the interest myself. Is this not as fair as any sane man can ask?

A Constipation Remedy Free

There is no action of your daily life of greater importance than to see that your bowels move. They should move at least once a day naturally, and by that is meant without any help. If they do not move at least once a day you can consider yourself constipated and it is time you did something about it.

You will be glad to know there is a way out of the difficulty. Lemuel Landerdale, an old soldier at Quincy, Ill., Elmer McMillan, of Speed, Mo., Mrs. Monahan, of Stoneham, N.H., and many others were as you are now. But one day they awoke to the fact that Dr. Caldwell's Syrup Pepsin was curing their friends, so they bought it too and it cured them. Today they are loud in praise of it.

What Dr. Caldwell's Syrup Pepsin did for them it should do for you. Surely your constipation is no worse than theirs, one of whom had it since '61. It only remains for you to realize that salts are of but temporary good, and what you want is a permanent cure; that purgative tablets, cathartic pills and such violent things make a great show of doing something, but do nothing that is lasting. Dr. Caldwell's Syrup Pepsin is a scientific preparation, a laxative-tonic, a mild syrupy liquid that contains ingredients that not only cure the constipation, but tone the intestinal muscles so that they learn again to work without help. A bottle can be bought of any druggist for the small price of 50 cents, and there is a dollar size for families who have already found out its wonderful value in stomach, liver and bowel troubles, in old or young. Send your name and address to the doctor and a free trial bottle will be sent you so that you can test it before buying.

BIBLE INSTITUTE

HOLDS MEETING UNTIL THE LAST MOMENT.

Excellent Sermons at All Baptist Churches Tonight—Good Program.

Tonight the Bible Institute, which has been in session this week at the First Baptist church, will close with services at all of the Baptist churches in the city. From the first service the institute has been a success, and despite inclement weather all services were well attended. The Rev. M. E. Dodd, pastor of the First Baptist church, who arranged the program, is especially happy over the interest the people have taken in the institute. Although tonight will close the institute none of the best sermons will be delivered, and large audiences are anticipated.

Last night at the First Baptist church, the Rev. J. S. Dill, of Bowling Green, spoke on "Saving the Home Land." It was a sermon of interest to the southerners, and he made a plea for home missions that the missionary work in the south might be carried on more extensively. Dr. Dill spoke especially of the Cumberland mountains, where schools and churches are being established as rapidly as possible. At the Second Baptist church the Rev. I. N. Poulak spoke; at the North Twelfth Street church the Rev. J. M. Burgess spoke on "A Scriptural Lesson."

Tonight's services.
First church, the Rev. W. E. Hunter, on "Bible Repentance."
Second church, the Rev. W. G. Taylor, on "Christian Charity."
East church, the Rev. J. E. Glenn.
North Twelfth Street, the Rev. J. R. Stewart.

Couts will be first division manager, with office at Guthrie, Ky.; John G. Orr, second division manager, with office at Princeton, Ky.; W. B. Hinkmore, third division manager, with office at Paducah, Ky. The old crop of tobacco on hand is selling very rapidly, something like 10,000 hogheads out of 60,000 hogheads controlled by the association, remaining unsold.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonials letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

PROTECTION

PROVIDED IN COMMISSIONER RANKIN'S PLANS.

Will Gather Statistics, to Give Accuracy of Every Farm Product.

Frankfort, Ky., Jan. 29.—Commissioner of Agriculture M. C. Rankin will gather statistics this year of the widest importance to the farmers throughout this commonwealth and if he succeeds in his plans he will take a step in the direction of curbing the power of trusts, which buy farm products. He is now working out a formula, that will be sent to a crop reporter, who will be known by the agricultural bureau to be thoroughly reliable, and in this formula will be given the acreage of every kind of crop that is grown in that district and the amount of poultry and dairy products. Commissioner Rankin hopes to know at the end of July every acre of corn, tobacco, hemp, oats, wheat and every other farm product grown in this state and approximately the vast amount of dairy and poultry products.

Dinner in China.
Sir Robert Hart, the veteran Inspector general of the Chinese customs, speaking at a dinner in London recently, said that once in Peking he sat out a banquet that lasted for seventeen consecutive hours. There were 125 courses, and he tasted them all. Mr. Ward, the American envoy to China, who tried to secure an interview with the Emperor Heng Fung in 1909, tells how he was entertained at a dinner that lasted from noon one day until 6 o'clock in the evening of the day following. The total number of courses is not given, but Ward mentions that he had to give in after partaking of 138 different dishes, "whereupon his hosts wondered greatly."—The New York Tribune.

There is something missing in a man's religion when he has to be shown the rule before he will do right.

GLASSES UNNECESSARY.
Eye Strain Relieved by Quitting Coffee.

Many cases of defective vision are caused by the habitual use of coffee. It is said that in Arabia, where coffee is used in large quantities, many lose their eyesight at about fifty.

A New Jersey woman writes to the point concerning eye trouble and coffee. She says:
"My son was for years troubled with his eyes. He tried several kinds of glasses without relief. The optician said there was a defect in his eyes which was hard to reach.
"He used to drink coffee, as we all did, and finally quit it and began to use Postum. That was three years ago, he has not had to wear glasses and has had no trouble with his eyes since."

"I was always fond of tea and coffee and finally became so nervous I could hardly sit still long enough to eat a meal. My heart was in such a condition I thought I might die any time."

"Medicine did not give me relief and I was almost desperate. It was about this time we decided to quit coffee and use Postum and have used it ever since. I am in perfect health. No trouble now with my heart and never felt better in my life."

"Postum has been a great blessing to us all, particularly to my son and myself."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in packages. "There's a old crop of tobacco on hand is selling very rapidly, something like 10,000 hogheads out of 60,000 hogheads controlled by the association, remaining unsold."

Daily Thought.

"Some little thing to do instead of say."

It's pronounced cheer-up-e-dist, if he cures you.

What's the good of quarantine? Didn't the emperor of China catch the smallpox?

Carlisle county also got cramped by her board of tax supervisors. As the result of their work the county will receive \$131.20 more revenue this year, for which the meeting cost the county \$144.

No institution that seems to give the populace as much pleasure as the guillotine does in France, should be suspended for so long a time again. The last time a man's head was chopped off the people began celebrating with fireworks the night before, and wound up with a big drunk the night after.

The retirement of James A. Garfield from the cabinet is regretted by many, who have been acquainted with the quiet work he has done as secretary of the interior. He climbed up from a bureau chieftainship to the cabinet, and he did it by hard work. He is son of the former president and his ambitious mother has been a spur to her sons. An ambassadorship is spoken of, but Mr. Garfield is not a wealthy man and might not be able to afford such an honor.

Tobacco planters could form an agreement that would keep up the price of tobacco without hardship, wrangling or suspicion. If they would all fix the acreage and stand by it. We have no hopes of such an agreement being made or kept; but that would solve the tobacco difficulty. It all depends on the law of supply and demand. Cut down the supply and the demand will increase the price. Then those who wished to, could sell early and receive whatever the buyers might be willing to pay, and those who could wait a few weeks would get their own price; but the probabilities are the buyers would size up the situation and be out bidding against one another before the crop was cut.

POSTAL SAVINGS BANKS.
In his speech in the senate, proposing amendments to the postal savings bank, Senator Cummins, of Iowa, said:

"Most of all the government shall redeposit funds in all banks which are organized under state laws and subject to public examination, not in national banks alone." In speaking of the last-named amendment, the senator said:

"There is not a village of 200 or more population in Iowa which has not at least one bank. These banks are the center of the commercial life of those communities, and it would be highly injurious to take funds from such communities and send them to banks fifty, a hundred or two hundred miles distant."

That's worth thinking about, too. No government postal savings bank will take the place of those state banks, related to and interested in local enterprises, depending upon

local capital, and comprising the system by which small sums are collected and mitted into available funds, sufficient to transact the business of the community.

No section of the country desires to have its surplus earnings carried through the postoffice to the great money centers to be distributed as the big city banks dictate. Better go slow about the postal savings bank until we are sure we will not do ourselves more harm than good.

BEING ON THE JOB.

When Secretary of State Root went to Rio Janeiro to attend the Pan-American congress, he was the first secretary of state to leave the country on official business. Less than a century ago such an act would have been condemned by jealous patriots. Roosevelt was the first president who ever left the United States soil when he went to Panama. Then Taft went on his mission around the world, followed by the fleet. Now we are to have a president, who has become personally acquainted with the world situation, assisted by a former secretary of state on the foreign relations committee in the senate. After all, isn't it good business sense for the heads of executive departments to get acquainted with their business at first hand?

RUDOWITZ SAVED.

Russia has signally failed in her purpose of setting a precedent for securing the return of fugitives from that country for trial on political charges. Christian Rudowitz was picked out as the most likely, because his conspiracy against the government comprehended murder, among other things. America and England constitute the only asylums for European political refugees, and if Rudowitz could be secured for trial and punishment the moral effect on the nihilists would be great. The fight for his extradition was made on the ground that he was a murderer and robber; but prominent Russians, Poles and social settlement workers took up his cause, and finally, when the question was fairly up to Secretary of State Root, he refused to honor the requisition, declaring that Rudowitz was clearly a political refugee.

SOME STORIES

AROUND TOWN.

In two letters Hanson McCann, who is a yeoman on the battleship "Kentucky," one of the vessels of the Atlantic fleet, returning from a tour of the world, has described his trip to his parents, Mr. and Mrs. J. A. McCann, 1041 Jefferson street. One letter was dated October 26, postmarked Tokio, Japan, and another, the second, was dated January 5, and mailed at Port Said, Egypt. The two letters were received in Paducah on the same date. Japan is written of as a delightful country, and he spoke of the hospitality shown Uncle Sam's boys Yokohama is described, and the extreme cleanliness of the natives. When one enters the dining room of a hotel, he is compelled to change shoes, and wear slippers. In his second letter he described the scenery on the northern coast of Africa, the slow trip through the Suez canal, and a sand storm on the Sarnha desert when the hatchways of the ship were closed. Mr. McCann was on a visit to his parents in the summer of 1907.

The Courier-Journal contributes this one, but it is applicable here: "It is, of course, considered the prerogative of a newspaper to wake a prominent citizen up to ask him whether he knows John Smith, who has been arrested in South Bend for robbing the postoffice. The prominent citizen may feel that the item isn't one of sufficient importance to require his testimony, but he usually gives it, if he considers well. "It's really a compliment to be asked to contribute to the news of the day," said a business man whose activities require him to be in the news pretty frequently. "I hate to get up and talk over the telephone at the loss of beauty sleep, but I realize that the papers are published for everybody, and that we oughtn't to grumble at being asked to do our share."

"It may or it may not be a coincidence, but it is true that that man is never mentioned in the local papers with an uncomplimentary reference. There is no extra charge for this tip to other prominent citizens."

That the birthday of Abraham Lincoln is a legal holiday in some states and not in Kentucky, which is his birthplace, does seem a little like the prophet without honor in his own country. Possibly, many Kentuckians may not know even know it; at least, two had to go away from home to learn it. It was brought forcibly to the attention of two Paducah men living in an eastern city in this way. One of them was glancing over his 1909 office calendar and noticed that February 12 was in red letters. "What in the thunder is February 12 that it is a legal holiday?" he demanded vigorously. "Now, if it was February 14 or February 22, I would know—but what is February 12, anyway?" His fellow-Kentuckian did not say "dumfounded"—but he looked it, as he eyed askance the strange calendar as a Yankee trick of some kind. Then he called in a native of the state to enlighten them and was wittingly told that "February 12 was the birthday of Abraham Lincoln, Kentuckian," and that it was a legal

holiday in that state. Upon investigating they found that the day is observed as a legal holiday in the following states: Colorado, Connecticut, Delaware, Illinois, Kansas, Massachusetts, Minnesota, Nevada, New Jersey, New York, North Dakota, Pennsylvania, Washington and Wyoming.

The fighting was over. One scene remained which Rastatz did not see. When Colonel Stinfitz, too, heard the call "Hinds up!" when the firing stopped and all became quiet, he ceased to struggle. Dunstunbury found him suddenly changed to a log beneath him. His hands were already on the colonel's throat, and he could have strangled him now without difficulty. But when Stinfitz no longer tried to defend himself he loosed his hold, got up and stood over him with his hand on the revolver in his belt. The colonel fingered his throat a minute, sat up, looked round and rose to his feet. He saw Sophy standing before him. By her side Peter Vassil lay on the ground, tended by Basil Williamson and one of his comrades. Colonel Stinfitz bowed to Sophy with a smile.

"I forgot you, madame," said Stinfitz.

"I didn't forget monsieur," she answered.

He looked round him again, shrugged his shoulders and seemed to think for a moment. There was an absolute stillness, a contrast to the preceding turmoil. But the silence made new-fangled men whom the fight had not shaken. Their eyes were set on Stinfitz.

"The prince died in fair fight," he said.

"No. You sent Mistle to murder him," Sophy replied. Her eyes were relentless, and Stinfitz was ringed round with enemies.

"I apologize for this embarrassment. I really ought to have been killed. It's just a mistake," he said, with a smile. He turned quickly to Dunstunbury:

"You seem to be a gentleman, sir. Pray come with me. I need a witness." He pointed with his unwounded hand to the barn.

Dunstunbury bowed assent. The colonel in his turn bowed to Sophy, and the two of them turned and walked off toward the barn. Sophy stood motionless, watching them until they turned the corner; then she fell on her knees and began to talk soothingly to Peter Vassil, who was hard hit, but in Basil Williamson's opinion, promised to do well. Sophy was talking to the poor fellow when the sound of a revolver shot—a single shot—came from the barn. Colonel Stinfitz had corrected the mistake. Sophy did not raise her head. A moment later Dunstunbury came back and rejoined them. He exchanged a look with Sophy, inclining his head as a man does in answering "Yes." Then she rose.

"Now for the barges and the guns," she said.

They could not carry the guns back to Volsen, nor, indeed, was there any use for them there now.

But neither were mousquetaire's guns for the enemies of mousquetaire. Under Lukovitch's skilled directions (his wound proved slightly the big guns were so disabled as to remain of little value and the largest taken out into the stream and there scuttled with their carriages).

While one party pursued this work Dunstunbury made the prisoners collect their wounded and dead, place them on a wagon and set out on their march to Slavna. Then his men placed their dead on horses. They had lost three. Five were wounded besides Peter Vassil, but none of them severely; all could ride. For Peter they took a cart from the farm to convey him as far as the ascent to the hills. Up that he would have to be carried by his comrades.

It was noon before all their work was done. The largest were settling in the water. As they started to ride back to Volsen the first rank. The second was soon to follow it.

"We have done our work," said Lukovitch.

And Sophy answered, "Yes." But Stinfitz's men had not carried the body of their commander back.

They left it in the barn, cursing him for the trap he had led them into. Later in the day the panic stricken lock keeper stole out from the cellar where he had hidden himself and found it in the barn. He and his wife lifted it with cursing, bore it to the river and flung it in. It was carried over the weir and floated down to Slavna. They fished it out with a boat-hook just opposite Suleiman's tower.

The hint to Captain Sterkoff was a broad one. He reported a vacancy in the command and sent the keys of the fort to General Stenovic. It was Sunday morning.

"The colonel has got back just when he said he would. But where are the

guns?" asked General Stenovic of Captain Markart. The captain had by

MICROBES IN THE SCALP.

The Latest Explanation Is That Microbes Cause Baldness.

Professor Unna, of Hamburg, Germany, and Dr. Sabouraud, of Paris, France, share the honor of having discovered the hair microbe.

Baldness is not caused through a few weeks' work of these hair microbes, but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to come sooner or later.

The microbes eat off the blood supply. They feed on the fatty matter about the root of the hair, through which the fatty matter is wholly consumed, the food supply of the hair is gone and it starves and finally dies.

Resorelin is one of the most effective germ destroyers; Beta Naphthol is both germicidal and antiseptic; Pilocarpin, though not a dye, restores natural color to hair when loss of color was caused by disease. These curatives properly mixed with alcohol as a stimulant, perfect a remedy unequalled for curing scalp and hair troubles.

We want everyone who has any scalp or hair trouble to try Rexall "93" Hair Tonic, which contains all these ingredients. If it does not grow hair on your bald head, stop your hair from falling out; cure you of dandruff; make your hair thick, silky, luxuriant; if it does not give you complete satisfaction in every particular, return the empty bottle to us, and we will return every penny you paid us for it, without question or formality.

Of course, you understand that when we say Rexall "93" Hair Tonic will grow hair on bald heads, we do not refer to cases where the roots are entirely dead, the pores of the scalp closed, and the head has the shiny appearance of a billiard ball. In cases like this, there is no hope. In all other cases of baldness Rexall "93" Hair Tonic will positively grow hair, or cost the user nothing. Two sizes, 50c and \$1.00. W. B. COUNTY BOARD OF HEALTH ISSUES STATEMENT.

Fear of Epidemic on Account of Prevalence of Disease at Cairo and Elsewhere.

County and city health authorities are co-operating to prevent a smallpox epidemic. Both boards met this morning and the city board appointed Health Officer Dr. H. P. Sights to work with the county board. Dr. Sights was in Cairo attempting to induce the authorities there to do something to stop the epidemic in that city. He could get no satisfaction, but now the situation there is so serious that the state health officers took a hand and organized a board of physicians.

Chief of Police Collins brought back from there a poster, used to describe the loathsome nature of the disease, in the hope of frightening people into adopting precautions. Cases have been running about the streets, and the authorities do not know how much smallpox there is in Cairo.

According to the statement of the county board there is nothing alarming in the local situation, aside from the prevalence of the disease in surrounding territory, and for that reason everyone is urged to be vaccinated without delay. This is backed by a city ordinance just passed, which makes vaccination compulsory.

Board's Statement.

The board of health issues the following statement:

Paducah, Ky., Jan. 20, 1909.
To the Citizens of McCracken County:
At a meeting of the county board of health it was decided to give warning to the citizens of McCracken county of the approaching danger from a smallpox epidemic and to advise those who are not vaccinated to be immediately vaccinated and if vaccinated in the past to be re-vaccinated, and further to be careful in every way to avoid coming in contact with the disease, or the spreading of the same. No efforts will be spared by the board of health to prevent the development or spread of the disease in McCracken county, and we earnestly ask the cooperation of her citizens in this effort.

At present there is but one case in the county, but the territory surrounding and approximate to us is infected, and in some places more than two prevalent. To avoid its appearance and spread among our citizens will require very great care and caution, and we are of the opinion that "an ounce of prevention is worth a pound of cure." We insist upon your efforts in securing vaccination and re-vaccination as the safest and surest method of preventing and combatting the disease.

CUT DOWN FOOD COST.

The one great problem of good housekeeping is how best to exercise food economy and still keep the enjoyment of meals at "top notch."

Faust Brand Spaghetti is the ready solution—for here is a food that not only helps the housewife to more than make both ends meet, but that actually adds to the joy of mealtime because of the way it lends in every meal of which it forms part.

Another advantage is that it is so nourishing—for even if the housewife has to entirely remove meat from the bill-of-fare the health and strength of the family in no way suffers if Faust Spaghetti is used—rather, the family health will improve because Faust Spaghetti nourishes without overtaxing the digestion.

There is no end to the ways of preparing new and appetizing dishes with Faust Brand Spaghetti. Free book of recipes sent on request. In sealed packages. Five and ten cents. All grocers.

WEST KENTUCKIANS.

The Confederate Veteran of recent date says:

The escort with President Davis when captured in May, 1865, was composed as follows:
Capt. Given A. Campbell, from McCracken county, Ky. (not captured), died in St. Louis, Mo.

First Lieut. Hazard P. Baker, Trigg county, Ky.

Private Harvey C. Sander, Trigg county, Ky. He has a \$20 gold piece received while on duty. Postoffice, New Boston, Tex.

Minus C. Parsley, Trigg county, Ky. (not captured.)

James T. Walbert, McCracken county, Ky. Dead.

Harrison Smith, Lyon county, Ky. Dead.

W. N. Ingram, Trigg county, Ky. Dead.

Thomas S. McSwain, Harris, Tenn. (not captured.) Dead.

W. A. Heath, Corbin, Ky.

W. A. Howard, Trigg county, Ky. (not captured.) Birmingham, Ala.

All of the above were of Breckinridge's Ninth Kentucky cavalry, Company B.

In sending the above from Cadiz, Ky., F. G. Terry writes: "I have seen frequent mention by various comrades of President Davis' escort from the vicinity of Charlotte, N. C., to points in Georgia, and it seems to be the generally accepted statement that escort dwindled down from three brigades to a selection of ten men, who stayed with him till that fatal morning when the curtain over the great drama was finally rung down. I have never seen the list of the gallant and devoted men who composed that escort; but now I have from the lips of the gallant young (?) lieutenant who was with the escort the names of that illustrious band, their places of nativity, etc. It will be seen that five of the number were from Trigg county, Ky., which county furnished something like four hundred men to the Confederate service.

It is better to express a good sentiment in a few words than it is to talk foolishly at much length.

Mr. Hard Sanderson resigned his position at Wallerstein Bros., and will assist his father in rehandling the association tobacco at Lone Oak.

WANT ADS.

YOU MAY HAVE

A stove for sale or some other article of furniture in good condition but useless to you to offer for sale. The Howling.

When my wayward boy came back From his reckless roaming, With his plumage ruff and wrack, Like a spent bird homing.

First I looked, and then I smiled, Then we clung together; He was still my child, my child, Love was still a tother.

Ne'er a word, reproach I said, Asked not what had kept him; Only when he lay in bed, Then (in mine) I wept him.

Wept the wounds upon him wrought, Those long years' bequeathing, Thrice that night his thresholds sought, Watchful of his breathing.

Listening, 'twixt times afraid, Lest he be some other— Thanking God, whose mercy made Me to be his mother.

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross. Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce's Great Family Doctor Book, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in plain English hosts of delicate questions which every woman, single or married, ought to know about. Sent free, in plain wrapper to any address on receipt of 21 one-cent stamps to cover mailing only, or in cloth binding for 31 stamps.

COLORED PARENTS WHIP BOYS IN COUNTY COURT.

The rod was deemed better and more economical punishment for three young negroes yesterday, by County Judge R. T. Lightfoot than a term in the reform school. Residents of the vicinity of the jail can testify that the rod was applied in proper fashion for the yelling of George Diggs, Della Cird and Marshall Polk were vigorous. The boys are about 15 years old, and have been robbing pigeon roosts and using short rifles. Trust Officer Jack Nelson caught them after a lively chase, and took them before County

Judge Lightfoot. The parents of the boys were present, and to save the expense of taking the boys to the reform school Judge Lightfoot gave the parents the privilege of thrashing the boys or having them sent to the school. The parents agreed to whip them, and in the jail yard switches were literally worn out over the backs of the boys, who pleaded that they would be good. When the parents were exhausted from using the rod Judge Lightfoot gave the boys a talk and let them go.

A man never realizes how silly his love letters are until he hears some of them read in court.

WOMAN'S NIGHTMARE

No woman can be happy without children; it is her nature to love them as much so as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of **Mother's Friend** prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

Book containing information of value to all expectant mothers mailed free. **BRADFIELD REGULATOR CO., Atlanta, Ga.**

Empty headhams furnished free to parties wishing to ship their tobacco by rail or river

Tobacco is unloaded in large, flat baskets, each grade to itself, weighed and receipt given owner, showing number of draft and pounds thereof. A corresponding ticket is placed on each pile. The highest bid is written on ticket and, should owner accept same, by presenting at office receipt previously given, the cash is handed over.

Should the bid offered not be satisfactory, the tobacco can be offered the next day or at any other time thereafter.

It costs absolutely nothing to offer your tobacco unless bid is accepted, in which case we charge 15 cents per hundred pounds and 2 cents on the dollar.

The greatest demand among manufacturers and dealers is for loose tobacco and, since it will bring more money offered loose, why go to the expense of having prized, stored, insured, inspected and looked after?

You will get more money for your tobacco when, offered to the highest bidder in open competition with twenty-five buyers trying to buy than when you expect or require one buyer to buy millions of pounds without competition at a round price.

LEADERS CONFER ON LEGISLATION

Appropriation Bills Will Occupy Congress.

Liquor Shipments Bill Might Be Passed By House—Forker Gives Notice He Will Take Up

SOLDIERS BILL AGAIN TODAY.

Washington, Jan. 29.—A conference look place between Senators Aldrich and Hale and Representative Watson, the Republican whip of the house, looking to the arrangement of a program for legislation for the remainder of the session.

The senate leaders made it clear that they did not purpose to enact any laws of a general character, as appropriation bills will occupy practically all the remaining time.

Watson said the house would pass the statehood bills for Arizona and New Mexico, and possibly the Knox bill regulating the shipments of intoxicating liquors into "dry" communities.

It was suggested by the senate leaders that if the latter measure should come over from the house the senate might amend it by adopting a more radical measure. Such a measure is not desired by the house leaders, and it is likely the question of passing the Knox bill will be considered fully before a decision is reached.

Omnibus Bill in Senate.

Washington, Jan. 29.—The omnibus claims bill before the senate during almost all the session. Various amendments were offered and acted upon, the vote on the amendment to repeal the Tucker act, under which the war claims are sent to the court of claims, being postponed until tomorrow.

Forker gave notice that he would again call up the bill for the reinstatement of the discharged soldiers of the 25th regiment, who were discharged without honor on account of the Brownsville "shooting up" August 14-16, 1906.

In the House.

Washington, Jan. 29.—Almost the entire session of the house was taken up with discussions of the conference report on the bill providing for the taking of the next census. Lively debate ensued over the provision granting to the director of the census the right to have the printing of reports done by private concerns in case such action should be deemed advisable, with the result that the supporters of the proposition were successful and the provision was agreed to.

The army appropriation bill was called up and had been but briefly discussed when the house adjourned.

AILMENTS OF MEN

HAPPILY OVERCOME.

Successfully Tried By Many.

Undoubtedly the following prescription will work wonders for that great class of men who, through dissipation of their natural strength, find themselves in their "second childhood" long before the three-score and ten allotted to life's pleasures and enjoyments are reached:

It is presumed to be infallible, and highly efficient in quickly restoring in "nervous exhaustion," weak vitality, melancholia and the functions.

First get fifty cents worth of compound fluid balmwort in a one ounce package, and three ounces syrup sarsaparilla compound; take home, mix and let stand for two hours; then get one ounce compound essence cardiol and one ounce tincture cadomene (not cardamon). Mix all in a six or eight ounce bottle, shake well and take one teaspoonful after each meal and one when retiring, followed by a drink of water.

By mixing it at home no man need be the wiser as to another's shortcomings and expensive fees are avoided.

Lack of police and equilibrium in men is a constant source of embarrassment even when the public least suspects it. For the benefit of those who want a restoration to full bounding health, and all the happiness accompanying it, the above home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

LAW BREAKING SALOONS

Fought by Brewers of Wisconsin and Upper Michigan.

Milwaukee, Wis., Jan. 28.—Wisconsin and the upper peninsula of Michigan brewers' association announced a state-wide campaign for the abatement of law breaking saloons beginning with the raiding of every saloon in Milwaukee county where slot machines could be found and bringing suits for revocation of licenses of saloon keepers who have sold liquors to minors.

Nearly 20 arrests were made in the raid, and the campaign is to be continued until all obey the law, say the officials of the association.

Watched Fifteen Years.

"For fifteen years I have watched the working of Bucklen's Arnica Salve; and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. It has saved us many a doctor bill," says A. F. Hardy, of East Wilton, Maine. 25c at all druggists.

Can a Medicine Be a "Fake" that has lived and grown in popularity for thirty years, and demonstrated its worth by actual cures of female ills in thousands and thousands of American families?

Any fair minded, intelligent person will emphatically answer NO! Such a medicine is Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, and its ever increasing popularity is due to actual merit alone.

HOPKINS RANKS MAY BE BROKEN

One Ballot Yesterday Owing to Failure of Hopkins and Lieutenants to Agree With Demcon.

RICHARD YATES GAINS TWO

Springfield, Ill., Jan. 29.—Owing to the failure of Senator Hopkins and his lieutenants to come to any agreement with Governor Demcon regarding the matter in the legislature, was the cause of the joint session of the general assembly taking but one ballot for a senator and then adjourning until next Tuesday noon.

Field Conference.

Postmaster Campbell, Mayor Russe County Collector of Cook County Handberg and former Senator Joseph F. Haas, of Chicago, were in conference with the governor. It is understood the governor insisted on the conditions of his support of Hopkins that the Chicago Hopkins lieutenants should get the northwest side legislators into line to come into a Republican caucus and agree on legislation and protect the governor in his contest and that Mayor Russe, Campbell and Handberg frankly told the governor that this was out of the question, and that they could not control the votes of the northwest legislators in Chicago.

Demcon Wants Protection. The men who were in the conference, it is asserted, made light of the governorship contest, but Governor Demcon took it seriously and insisted that he should be protected if he did anything for Hopkins.

A slate of appointees prepared by the Democratic and Shurtliff Republican steering committee of the house and containing the names of both Democrats and Republicans, was knocked out by a vote of 75 to 73, 23 Democrats voting against the slate.

Break Expected.

A break in the Hopkins ranks is expected next Tuesday. A Hopkins man said that at least 30 of the 72 who voted for Hopkins stood ready to leave him next week. The quarrel between the Browne and Tippl factions of the house Democrats which resulted in the running down of the Shurtliff Republican and Democratic slate of house officers in the house is a serious thing, and is causing Shurtliff much worry. It was the Tippl men who knocked out the slate.

How Is Your Digestion?

Mrs. Mary Dowling of No. 228 8th Ave., San Francisco, recommends a remedy for stomach trouble. She says: "Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market today." This great tonic and alterative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c at all druggists.

LIVESTOCK.

Louisville, Ky., Jan. 29.—Cattle—Receipts 236, for the four days 2,788. The attendance of buyers was light, limited principally to local traders and butchers; the market quiet and without any material change in prices. The choice handy-weight butcher cattle were the best sellers; some little demand for high-grade feeders and stockers; all medium and inferior kinds of cattle were very dull and hard to find an outlet for. Bulls slow; canners and cutters dull. Milch cows unchanged. No heavy cattle on sale; feeling about steady. We quote: Shipping steers, \$4.50@5.75; beef steers, \$3.00@5.00; fat heifers and cows, \$3.00@4.50; cutters, \$2.00@3.00; canners, \$1.00@2.00; bulls, \$2.00@3.75; feeders, \$3.00@4.75; stockers, \$2.00@4.25; choice milch cows, \$35.00@45.00; common to fair, \$10.00@30.00.

Calves—Receipts 64, for four days 452. The market ruled quiet, best calves 5 1/2 @ 7c; medium 4 @ 6c; common 2 1/2 @ 4c.

Hogs—Receipts 1,369, for the four days 9,134. The market was very dull, but little doing; a few choice Kentucky hogs from nearby points sold 10c lower, 160 pounds and up \$6.30; 130 to 160 pounds \$5.65; pigs, \$4.65; roughs, \$5.70 down. Buyers refusing to buy hogs from doubtful sections except under guarantee, and in case such hogs killed soft or oily, they wanted a reduction of 2 cents per pound, which concession salesmen were unwilling to make. The pig trade was demoralized, no light pigs selling, and hardly any heavy pigs; pens full of pigs carried over from earlier in the week.

Sheep and Lambs—Receipts light, for four days 217. The market ruled quiet and unchanged, best lambs, 5 @ 6c; culls, 3 @ 5c; fat sheep 4c down. No demand for common, trashy sheep or lambs.

FIRST SIGNS ARE IN THE BACK

Don't Neglect Nature's Danger Signals When Kidneys Are Involved.

Take care of backache. A great many cases of kidney complaint are reported about here; also bladder trouble and rheumatism.

An authority once stated that pain in the back, loins or region of the kidneys is a danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention. Only vegetable treatment should be administered and absolutely no strong alcoholic medicines, which are harmful to the kidneys and bladder.

The following prescription, while simple, harmless and inexpensive, is known and recognized as a sovereign remedy for kidney complaint. The ingredients can be obtained at any good prescription pharmacy and anyone can mix them: Compound Karsagon, one ounce; Fluid extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

This preparation is said to restore the natural function of the kidneys, so they will sift and strain the poisonous waste matter, uric acid, etc., from the blood, purifying it and relieving rheumatism. Backache will be relieved, the urine will be neutralized and cleared and no longer a cause of irritation, thereby overcoming such symptoms as weak bladder, painful, frequent and other urinary difficulties.

This is worth trying and may prove just what many people here need.

A Question. Little Edna, who was taught to be strictly honest in the smallest details, on seeing a family of gypsies "movers," ragged and unkempt, housed in one canvas-covered wagon and drawn by the leanest horses, remarked: "If I were as poor as they, I'd borrow a gun, go out into the woods and shoot myself—but who'd bring the gun back?"—The Delineator.

MINERS' ACTION IS CRITICISED

Member Executive Board Dislikes Political Trend.

Resolution Defeated Which Protested Against Repeal of Duty on Coal—Would Commit Union.

DECLARES MR. JAMES MOONEY.

Indianapolis, Ind., Jan. 29.—Criticizing the political trend of the convention of the United Mine Workers of America, James Mooney, of Missouri, member of the national executive board of the organization, in a speech opposing the resolution protesting to congress against the repeal of the tariff on coal, said:

"Populism, Socialism, Bryanism. The other day you committed this convention to populism when you recommended the issue of currency instead of bonds for the payment of the expense of deepening the waterways, now you have committed it to socialism by adopting a resolution declaring for public ownership of public utilities. If you protest against the removal of the duty on coal you commit us to Republicanism, and if this happens I shall introduce something that shall commit you to Bryanism."

Resolution Defeated. The tariff resolution was intended as a measure of local protection of the miners of the northwest and several of their representatives spoke for it. Many other speeches were made against it, and the resolution was finally defeated.

The resolution favoring woman suffrage was adopted.

Swells larger than any that have been seen on the river for many a day were rolling this morning. All the boats, pushing tows, were compelled to tie up last night and keep a close watch on the lines and put new lines out when the ones in use parted. The towboats will be compelled to stay at the bank till the wind dies down. Packets had trouble in making landings, because of the strong wind, but all packet boats were in port today, some a little late.

The steamer Kentucky arrived from Riverton, Ala., and all way landings this morning with several cars of freight aboard for Brookport. She went down the river to unload and in from the Tennessee until tonight. Big freight business up the Tennessee and the hard storm last night and today has delayed her.

Someone has advanced the startling theory that there is nothing so monotonous as monotony.
